Calibrating a new Soft Muon Tagger for use in finding the Top quark pair production cross section, using the ATLAS Detector.

Matthew Rose

Department of Physics
Royal Holloway, University of London

A thesis submitted to the University of London in pursuance of the
Degree of Doctor of Philosophy

February 29, 2012

DECLARATION

I confirm that the work presented in this thesis is my own. Where information has been derived from other sources, I confirm that this has been indicated in the document.
